

# Overview

---

One bright summer day, many years ago, the first batch of Bright Steel Bars rolled off the production lines of Grand Foundry. And since then, there's been no looking back.

It has to its credit one of the best equipped plants in the country and some of the most sophisticated and efficient processing technology in the world. It also has specially developed Pickling and Heat Treatment lines.

Grand Foundry supplies practically every grade of steel required by the engineering industry to customers spread out throughout India and countries like USA, Japan, Singapore, Italy, Australia and Canada. Through its Export Trade Development Cell, Grand Foundry offers sourcing of overseas markets for small Indian engineering and manufacturing companies.
